

# You're Running Out Of Time to take Advantage of This Opportunity!

The Sands of Time Wait for No One, Retirement is Coming; it is Critical that You Respond Immediately!

Dear Sarah,

Why did I send you a sand timer in this letter?

First, to draw your attention to this short message.

Second, are you sure you have enough money saved for a comfortable retirement?

If you're in your 50's and you think you have enough in your retirement plan to see you through your retirement, maybe you should think again?

According to research (Motley Fool), the average balance in a typical 50-year-old's retirement savings account is a paltry \$43,797 – even though many baby boomers believe that they need approximately \$800,000 in order to retire comfortably.

If you find yourself in this position or even worst with no saving at all, then we have a solution that will have you in control of your retirement fund in no time.

Watkins Insurance Company Limited

P.S. I know you may be hesitant, even a little skeptical, and I understand. After all, which insurance company can you trust these days. But so was Mr S. Dyer of Boulder, Colorado when I sent him this letter. See what he said after finally giving us a call:

"On behalf of my wife and myself, I want to thank you for the all the guidance, insight, and assistance provided by Watkins Insurance Company Limited. It is truly a service to individuals like us finding ourselves in such a daunting position. We've become a much more relaxed and savvy couple. Our enhanced understanding of retirement planning has helped us to successfully navigate the rocky waters of transition from employees to soon to be retirees."
